

Objective

My curiosity for a new field has landed me in the position of completing a software development course with Code Institute. I am now ready for collaborations and putting in my efforts in a tech department. I bring a positive energy and willingness to learn, improve and dig in with my new employer. My analytical and time management skills together with an eye for aesthetics is my combo for problem-solving efficiently.

Skills

- HTML/CSS
- Python
- Javascript
- Git
- PostgreSQL
- JQuery
